This they did for one course, when the waiters resumed. F. S. President Harrison talked on antirallway prejudice, taking a hopeful view for the future. Even if we devoted all of our income to that end, and for many years we have so devoted most of it, the agricultural and industrial South is growing so fast that we could not keep up with it, much less keep ahead of it and so held yet ready to provide the capital by buying our securities. Under the operation of the new income tax law we have had an opportunity, never before possible, to ascertain where and by whom many of our service very every served to the Southern Rallway.

HART TO APPEAR

Will Urge Congress to Adopt Pending Migratory Bird Law.

M. D. Hart, president of the Audubon Society of Virginia, received an invitation yesterday to appear before a congressional committee in Wastington in support of the pending bill, appropriating \$100,000 to carry into feet the purposes of the Federal migratory bird law. Mr. Hart will go to Washington early next week. Mr. Hart said yesterday afternoon:

"The people who are opposing this appropriation are really fighting the entire law. They, as a rule, are disgruntled hunters, men selfish to the core, then who would not willingly give up a penny for future generations, men who would not plant a fruit tree unless they expected to cai the fruit of it. This law builds for the future as well as present—a wise and same instrument in the interests of all the nation. It provides for a national resource in a national manner."
